Certificate in Java – Code Academy; **On-Going**
Certificate in Web Development — Launch Code; **Graduating November 2021**

Projects

Blue Spruce Lodge – Website | Programmer and UI/UX Specialist | [GitHub Link](#) | [Live Demo](#)

About: My team and I built a web responsive website for a fake ski lodge we named Blue Spruce Lodge. I was the UI/UX Specialist. I helped research what would be needed, built a wireframe with Figma, picked the color scheme and fonts, and helped to adapt a bootstrap theme to fit my wireframe.

Technologies used: HTML, CSS, Bootstrap, Javascript, JQuery

KAPS Bug Tracker | Programmer and Project Manager | [GitHub Link](#) | [Live Demo](#)

About: I was the project manager for building this bug tracker app we called KAPS. I held daily meetings, set goals, and made sure my team had what they needed to succeed. We often coded as a group to ensure everyone understood what was happening.

Technologies used: HTML, CSS, Bootstrap, Javascript, JQuery, Node.js, MongoDB, Postman

GitHub Finder | Programmer | [GitHub Link](#) | [Live Demo](#)

About: I programmed an application where users can find the details of users on GitHub.

Technologies used: HTML, CSS, Bootstrap, Javascript, JQuery, API
